ARTICLE V

NON-CONFORMING LOTS, STRUCTURES AND USES

500 INTENT

It is the intent of this ordinance to permit non-conforming lots, structures, and/or uses to continue until they are removed, but not to encourage their survival. It is further the intent of this ordinance that non-conformities shall not be enlarged upon, expanded or extended, nor be used as grounds for adding other structures or uses prohibited elsewhere in the same district.

510 NON-CONFORMING LOTS OF RECORD

In any district in which single-family dwellings or duplexes are permitted, such dwellings and customary accessory buildings may be erected on any single lot of record at the effective date of adoption or amendment of this ordinance notwithstanding limitations imposed by other provisions of this ordinance. This provision shall apply even though such lots fail to meet the requirements for area or width or both, that are generally applicable in the district, provided that yard dimensions and requirements other than those applying to area or width, or both, of such lots shall conform to the regulations. For the district, variance of yard requirements shall be obtained only through action of the Board of Adjustment and Appeals.

520 NON-CONFORMING USES OF LAND

Where at the time of passage of this ordinance lawful use of land exists which would not be permitted by the regulations imposed by this ordinance, the use may be continued so long as it remains otherwise legal.

530 NON-CONFORMING STRUCTURES

Where a lawful structure exists at the effective date of adoption or amendment of this ordinance that could not be built under the terms of this ordinance by reason of restrictions on area, lot coverage, height, yards, its location on the lot, or other requirements concerning the structure may be continued so long as it remains otherwise lawful.

540 NON-CONFORMING USES OF STRUCTURES and/or PREMISES IN COMBINATION

If lawful use of structure and premises in combination exists at the effective date of adoption or amendment of this ordinance that would not be allowed in the district under the terms of this ordinance, the lawful use may be continued so long as it remains otherwise lawful.

550 REPAIRS AND MAINTENANCE

Ordinary repairs, including repair or replacement of non-load bearing walls, fixtures, wiring or plumbing, to an extent not exceeding 10% of the current replacement cost of the non-conforming structure or non-conforming portion of the structure may be made in any period of twelve-(12) consecutive months. Nothing in this ordinance shall be deemed to prevent the strengthening or restoring to a safe condition of any building or part thereof declared to be unsafe by any official charged with protecting public safety, upon order of such official.

560 USES UNDER CONDITIONAL USE PROVISIONS NOT NON-CONFORMING USES

Any use which is permitted as a conditional use in a district under the terms of this ordinance shall not be deemed a non-conforming use in such district, but shall without further action be considered a conforming use.

570 DISCONTINUANCE OF NON-CONFORMING USES

When a nonconforming use of any building, structure or land has been discontinued for a period of twelve (12) consecutive months, it shall not be re-established or changed to any use not in conformity with the provisions of the zoning district in which it is located. Non-operative status or vacating of the premises or building shall be evidence of discontinued use.

580 ILLEGAL USES, LOTS SIZES AND STRUCTURES

Any use, structure, lot size or dimension(s) which would not be permitted by this ordinance and which would not be a non-conforming use, structure, lot size or dimension(s) as defined herein because it was created or established after March 6, 1979, shall be deemed an illegal use, structure, lot size or dimension(s).

Any illegal use, structure, lot size or dimension(s) which has existed continuously for a period of ten-(10) consecutive years or more after March 6, 1979 AND which has not been subject to any enforcement action, may be converted to a non-conforming use, structure, lot size or dimension(s) by action of the Board of Adjustment and Appeals after public hearing thereon. The burden to prove that the use, structure, lot size or dimension(s) has existed for a period of ten-(10) consecutive years or more after March 6, 1979 shall be upon the person(s) or entity seeking to convert the illegal use, structure, lot size or dimension(s) to a non-conforming use, structure, lot size or dimension(s). If the Board of Adjustment and Appeals grants the conversion to a non-conforming use, structure, lot size or dimension(s) then said use, structure, lot size or dimension(s) shall no longer be considered an illegal use, structure, lot size or dimension(s) and shall be subject to the provisions of this Article V.

590 DIVISION OF LAND SERVED BY A NON-CONFORMING PASSWAY EASEMENT

An owner of land which has a non-conforming passway or easement (i.e. less than 40' in width as required by Section 810 herein) as its only means of ingress/egress to a public road **AND** that non-conforming passway or easement existed prior to the adoption of the Zoning Ordinance for Mercer County on February 27, 2003, shall be permitted to either:

2. In the case of a Family Off Conveyance pursuant to Section 730 of this Ordinance, there shall be no limitations on the number of times the owner may divide the land for off-conveyance to his "family members" as defined by Section 730. any owner dividing his land under the Section 730 Family Off Conveyance provisions shall not be required to to meet the 150' Minimum Road Frontage and Width at Building Line requirements of Section 730 or the 40' minimum road width requirement of Section 810 with regard to any of the tracts of land off conveyed to the family member(s), but shall be required to meet the remaining requirements of Section 730, Section 810 and other applicable provision of this Ordinance.

In no event shall the owner be permitted to divide the land both under this section and the Section 730 Family Off Conveyance.

Any subdivision of land served by the extension of an existing passway or easement shall have a plat prepared by a registered land surveyor in good standing in the Commonwealth of Kentucky and shall not be recorded by the Mercer County Clerk until the plat has been approved by The Greater Harrodsburg/Mercer County Planning and Zoning Commission and the approval entered thereon in writing.

The plat shall indicate the location and width of the existing non-conforming passway or easement; and shall further indicate the width and location of any proposed extension of the non-conforming passway or easement intended to serve the tract to be off conveyed.

The burden of proof shall be upon the property owner seeking to divide the property to show the location and width of the non-conforming passway or easement and that said easement or passway existed prior to February 27, 2003.

The limitations on the division of land served by a non-conforming passway or easement as set out in this Section 590 shall be typed upon any plat to be used in the division of said land as a warning as disclaimer to future owners and The Greater Harrodsburg/Mercer County Planning and Zoning Commission shall not approve any plat not containing this warning or disclaimer. The disclaimer to be placed upon the plat shall read as follows:

WARNING! Approval of this plat by the Planning and Zoning Commission does not ensure that emergency services will be available ; or that the passway or easement will be maintained by the Mercer Fiscal Court as part of its County Road Maintenance Plan; and does not limit or deny any civil causes of action for use of the passway or easement.

It shall be the policy of Mercer County to promote progressive development of land construction thereon by encouraging planned unit developments (PUD) in order to achieve a maximum choice of living environments by allowing a variety of housing and building types and permitting an increased density per acre and a reduction in lot dimensions, building setbacks, and area requirements; a more useful pattern of open space and recreation areas and, if permitted as part of the project, more convenience in location of accessory commercial uses and services; a development pattern which preserves and utilizes natural topography and geological features, scenic vistas, trees and other vegetation, and prevents disruption of natural drainage patterns; a more efficient use of land than is generally achieved through conventional development resulting in substantial savings through shorter utilities and streets; and a development pattern in harmony with land use density and community facilities objectives.

1310 PROVISIONS GOVERNING PLANNED UNIT DEVELOPMENTS

Whenever there is a conflict or difference between the provisions of this Article and those of other Articles of the ordinance, the provisions of this Article shall prevail for the development of land for Planned Unit Developments. Subjects not covered by this Article shall be governed by the respective provisions found elsewhere in this ordinance.
